

Who We Are

Highland Technology Services, a small, veteran owned business, provides information technology and management consulting services to government and industry. Since its founding in 1996, Highland has supported clients across the federal government and industry with technology solutions that enable them to perform their critical missions effectively and efficiently and adapt to ongoing business challenges. We combine extensive domain knowledge with technical expertise to help our clients improve their performance. Highland has achieved a truly significant reputation for quality staff, work ethic, timeliness and cost control/cost containment that has personified the concept of high value return on investment (ROI).

Services and Solutions

Highland's services focus on solutions to improve business processes and to promote, sustain and enhance best practices within customer's organizations. Aligned across five lines of business and five primary service types, our typical engagements span the breadth of these services and business areas and provide integration services as well as policy, best practices, and systems to meet the needs of our clients.

Lines of Business

- Enterprise Solutions
- Application Development
- Cyber Security (Information Assurance)
- Infrastructure Design and Engineering
- Operations and End-User Support

Services/Technology Focus

- IT Operations Management Support
- Wireless Management Support
- Records and Document Management
- Systems Design and Integration Services
- Network Infrastructure Management

Clients and Partners

A major portion of the company's work has been centered in high impact, high visibility, national programs, especially for the Department of Energy (DOE). For more than a decade, the firm has developed over 300 simple-to-complex applications, designed and deployed secure wireless networks supporting handheld devices, and performed complex and comprehensive cyber security services spanning policy to certification and accreditation.

- Department of Energy (DoE)
- Department of Housing and Urban Development (HUD)
- U.S. Census Bureau
- General Services Administration (GSA)
